

# WATER SCARCITY, SALT COUNTRY

Saltwater, dirty water, I'm drinking all of it.  
God is providing for me.

I only get two or three glasses  
of water to drink. I will take a  
bath with any water.

Though I knew [of the water crisis]  
I still came, thinking the problem  
can be solved.

We have all taken initiatives to solve the water problem

Our pond is beautiful... There is water here  
where there wasn't before.

Those who come here having left their home,  
they can live in so much unhappiness.

I am dying, I am dying. Don't you die. Don't come to  
the river island. I will forbid you to come.
