Overview

This bibliography was created by the University of Washington Libraries as part of the *Preserving the History of U.S. Agriculture and Rural Life Grant Project* funded and supported by the National Endowment of the Humanities (NEH), Cornell University, the United States Agricultural Information Network (USAIN), and other land-grant universities.

Please note that this bibliography only covers titles published between 1820 and 1945. It excludes federal publications; articles or individual numbers from serials; manuscripts and archival materials; and maps. More information about the creation and organization of this bibliography, the other available bibliographies on Washington State agriculture, forestry, and fisheries, and the *Preserving the History of U.S. Agriculture and Rural Life Grant Project* for Washington State can be found at:
